

Corylus avellana Contorta

Corylus a. Contorta #15 STK

**BOUNTIFUL
FARMS**

Corylus a. Contorta #10, bush

The unique ***Contorted Filbert*** is a tree that can be enjoyed all year long. It's twisted, curling branches and trunk are most readily visible in late fall and winter after leaves have fallen. Bright yellow male catkins are produced in late winter before leaves emerge. Vibrant green foliage turns golden yellow in fall. For optimal growth, plant in a sunny location.
